

With de la Barra, He Withdraws From the Race For the Presidency.

CABINET MEMBERS EXPECTED TO QUIT

MEXICO CITY, MEX., April 25.—Gen. Felix Diaz and Francisco de la Barra, the foreign minister, have definitely withdrawn as candidates for the presidency and vice presidency, respectively, of Mexico. The reason given for their action is congressional action to resign to the election.

Front \$7,500,000 Loan.

The Mexican government has floated a loan of \$7,500,000 for one year at 8 1/2 percent interest, through C. & C. Co., bankers of London, according to information which apparently is reliable. The loan was arranged by Sir Weston L. Pearson (Lord Cowdray), and is secured on the government's holding in the Tehuantepec railroad.

The resignation of Garcia Granados as minister of the interior, in all probability will be followed by the resignation of other members of the cabinet who are dissatisfied at the postponement of the election.

Report Defers Elections.

The war department has received a report of the defeat of 1500 Carranza forces at Tepic, in the state of Colima, south of Mexico by 800 federalists under Col. Ricardo de la Pen. The rebels are said to have lost heavily. They fled to the north with the federalists in pursuit.

MAY CONFISCATE IDLE INDUSTRIES

New Law in Sonora Planned to Force Foreign Corporations to Operate.

Douglas, Ariz., April 25.—The convention of state leaders, held yesterday at Agua Prieta, agreed to put on foot active measures to prevent the non-operation of large industries in the state. Should they directly or indirectly refuse to operate, the government will be considered to have taken possession of the property.

The measure is being introduced in the meeting. A telegram was sent to governor Pesqueira at Cananea, asking him to take action to force the law, which has passed immediately by the state congress.

The move is absolutely necessary, according to state leaders, as the S. P. railway is refusing to operate and the apparent proximity of a close down at Cananea and the withdrawal of practically all banks doing business in the state have no supply of ready money and the work of thousands of people is being paralyzed.

The constitutional forces have been and now are willing to guarantee every road and mining property to reopen immediately. Their refusal will be deemed an active aid to Huerta to the detriment of the nation and the cause. We would withdraw all guarantees under those circumstances, both of property and the withdrawal of property of offending companies would follow. Refusal to comply with our demands would result in the confiscation of the property.

It is admitted that by asking the government to take the state forces see their way clear to free themselves from blame in case of future confiscation of property and destruction of property. Business is paralyzed and bread riots are anticipated in many places inside Cananea.

Gen. Ojeda's 200 men are expected to arrive at El Paso some time between 8 and 9 o'clock this evening. They will go to Juarez, Col. Juan N. Vasquez, commander of the Juarez garrison, will not come to El Paso to greet them, but will welcome them upon their arrival in Juarez. He has not been notified of their coming.

St. Louis Bank Says Terminal Railway Stock Was Sent to Former Senator.

HENRY CLAY PIERCE IS ALSO INVOLVED

ST. LOUIS, Mo., April 25.—The name of former senator Joseph W. Bailey, of Texas, was brought into the proceedings in the suit of the National Bank of Commerce of St. Louis to recover \$1,500,000 worth of stock in the Nashville Terminal Railway company here today. A statement was made that without the knowledge of the bank directors, the stock was taken out of the bank and sent to senator Bailey.

Bailey, the statement continued, placed the stock in the Standard Trust company of New York, where it remained three years. Then it is charged that it was drawn out by the Tennessee construction company and turned over to Henry Clay Pierce, of St. Louis.

The statement was made by George Lockhart, attorney for the bank, at the hearing before Hugo Muerch, special commissioner.

Lockhart said attorney Edwards, was taken by the Tennessee Construction company as security for the loan of \$1,500,000, which was made in 1904 pledged by the Construction company as security for a loan in the National bank of Commerce.

In the suit it is charged that 10,000 shares of the stock were withdrawn from the bank by Pierce and his agents, while the loan was still unpaid. The suit is to recover this stock or its equivalent, \$1,500,000.

JOHNSON BLAMES FEDERAL STATUTES

California Governor Says United States Has Already Drawn Lines Which the State Now Seeks to Establish.

Sacramento, Calif., April 25.—Not the dignity of Japan, but the dignity of California is at stake in the controversy over the anti-alien law, according to governor Johnson, and if the plans of the majority party here give offense to the government at Tokyo, the California executive absolves the state from blame on the ground that the federal government has already drawn the line which the state now seeks to establish.

Governor Johnson defined the position of the legislature in the matter, trusting that secretary of state Bryan, who is en route from Washington to Tokyo, would understand the views of the federal administration, might learn thereby the attitude of California towards a law denying land ownership in the state to aliens.

Johnson said that the federal citizenship in the nation. That this restriction applies to the subjects of foreign countries, and that the federal government is responsible for the views of the governor.

Such a law is being drafted by senators and congressmen, and it will apply solely to the alien land act and will apply solely to members of foreign nations described by the federal government as ineligible to citizenship in the United States.

Conference Not Desired.

A party vote of 41 Progressives goes against 11 Democrats and one Taft Republican vote today in the lower house of the legislature, inviting the governors of Nevada, Washington, Oregon and Arizona to participate in the conference with secretary of state Bryan on the alien land law.

The Progressives opposed the resolution on the ground that it was unnecessary.

The resolution was not introduced in the senate and senator Campbell, a Democrat, stated that the plan had been abandoned.

Representative Moore Has Queries Read From Platform and Answers Them.

SENATE TO RECEIVE BILL EARLY IN MAY

WASHINGTON, D. C., April 25.—With only three days left for general debate on the Underwood tariff bill in the house, the prospect is that the measure will pass the house and go to the senate during the first week in May.

Representative J. Hampton Moore, of the Republicans, and representative A. Mitchell Palmer, for the Democrats, were leaders in the debate today.

Moore Answers Own Queries.

Representative Moore introduced a query to the speaker, asking for the history of congress, so far as is known, a speech on tariff was delivered by the speaker of the house, and the delivery of replies from the floor.

Moore's speech was a "tariff primer," following the lines of Plato's republic in form. He sent to the desk a set of queries which the clerk passed to him, and he answered them in his answers, ran the gamut of tariff legislation and tariff problems.

Representative Palmer declared the Underwood bill, if enacted into law, would remain in the statute books for years to come as a happy solution of a long vexed question.

It must be said, "have the united support of the political party which is responsible for it, and it must permit American industry to proceed towards the capture of a large share of the world's market without causing an embarrassment sufficient to bring distress to any large body of our people."

He expressed confidence that both of these results would follow, but continued:

"It should be turned out that the Underwood law shall be so weakly nourished in the confidence of the people that it fails to survive the great test of the popular election."

Many New Business Houses Are Erected and Farm Development Has Been Great in Three Years.

Fort Stockton, Tex., April 25.—El Pasoans on the trade excursion opened their sleepy eyes this morning in Fort Stockton and after breakfast at the Rooney hotel, spent two hours auto mobile riding through the irrigated alfalfa fields, grape vineyards and fruit orchards, surrounding the pioneer west Texas town. Astonishment was expressed at the rapid farm development and the great growth of the town, all of which has been accomplished in three years.

MANY NEW STORES.

The substantial and ornate character of the business blocks erected much to the surprise of the visitors. The new First National bank just nearing completion is of reinforced concrete, two stories high, much resembling the El Paso Carnegie library. All the new stores are of reinforced concrete and modern.
